

A rough drawing showing Linden Court and an aerial photo of the area can be found under the Linden Court drawing and Photo link. The request for quotations for Linden Campus refer to this area. The complex is built on an incline.

Priority of visibility on the security cameras:

1. Smoke shelter (pink) sufficient clarity to identify persons
2. Driveways (green) sufficient clarity to read license plates
3. Sidewalks/ courtyards (yellow).

The quotation should include a narrative describing the proposal indicating where cameras will be placed and description of the area that will be visible and the level of visibility. Proposals may include multiple scenarios/possibilities of placement, strength and number of cameras all within the price limitation.

The system should be compatible with Integral Remote View or DS Control Point 7.6.32.
